**Full Stack Web Developer Intern**

Sep 2024 - March 2025

Au Multidimensional Solutions

*Bengaluru, India*

- Developed responsive web applications utilizing React.js and Node.js, resulting in a 30% reduction in page load time and enhanced user interface and user experience.
- Integrated secure MySQL databases to optimize query performance and ensure the integrity of critical data.
- Collaborated effectively within Agile development teams, actively participating in code reviews, daily stand-up meetings, and sprint planning sessions.

## PROJECTS

---

**Edusync – A college website development.** Developed a dynamic and comprehensive college website using web development technologies to efficiently manage student details, control access permissions, and implement an automated low-attendance alert system, thereby improving communication and streamlining operational workflows.

**Blood Bank Management.** Built a real-time DBMS-based system leveraging SQL to effectively manage blood donations, maintain accurate inventory records, and organize donor information, thereby streamlining operational processes and ensuring efficient blood availability and tracking capabilities.
